

Kathryn McCarrick

North Saint Paul, Minnesota

Kathryn is a 2nd year, 5th grade teacher at Weaver Elementary in North Saint Paul, Minnesota. She is excited to receive a 2023 Book Love Foundation grant and plans to use it to build a very diverse collection for her classroom library that reflects the diversity found in her school. She believes that every student should be able to see themselves as the hero or heroine of a high-interest book regardless of race, language or identity. She cannot wait for her students to have both fiction and nonfiction options that reflect this. She hopes to support her students into becoming life-long readers and seekers of knowledge. Kathryn is thankful and excited to have this opportunity to spread diversity, love and joy in her community through books!
