

## Book Love Foundation Summer Book Club 2022

*A dynamic, online professional community of teachers, authors, and educational leaders*

Penny Kittle is the founder and president of the Book **Love** Foundation, a 501(c)3 non-profit organization, which provides grants to teachers to build classroom libraries. All teachers must inspire joyful, engaged reading in all young people. The Book **Love** Foundation has raised more than \$1M since its inception and have supported over 330 teachers in the U.S. and Canada.

Our summer book club team, including board members Clare Landrigan, Julia Torres, and Yukari Ohno work alongside grant winners to create 5 weeks of continual professional learning for leaders, teachers, and specialists. We discuss books, plan units, and collect resources that lead to engaged learning. All interviews and units are available all year.

### 2022 is the Year of Connection and Restoration!

Summer is a time to restore our **love** of teaching and learning. We reconnect with colleagues across the globe, expand our understanding of current literature, and reenergize our understanding of reading for the next school year. In 2021 we had 1350 teachers and leaders from 15 countries! We discuss books that inspire students to become passionate readers and writers. This year we include books and author interviews *specifically for middle school students and teachers*. All book selections for elementary, middle, and high school students are representative of our multi-racial democracy. We will study how readers make meaning, sustain engagement, track understanding over time, and develop their knowledge of different genres. As a community of professional educators, we learn together and plan instruction to reach a wide range of readers as we learn from authors, poets, and educational leaders.

### Who Should Join? YOU!

All K-12 teachers, reading specialists, curriculum specialists, school librarians, literacy leaders, and administrators.

### What's Included:

#### Online Content on Mighty Networks

- Exclusive online discussion of books through use of writing prompts, discussion topics and live chats.
